Jonathan Machado

UX/UI PRODUCT DESIGNER

Product Designer with 12 years in graphic and digital design, 5 of them focused on UX/UI and product. I design user-centered experiences for apps and web platforms, grounded in usability, accessibility and product management. I work in agile teams across property management, education, events and games.

−30%	+25%	4.2/5	85%
time managers spend on tasks	task completion rate	average satisfaction	would recommend the platform

EXPERIENCE

Mid-level Product Designer
2021 – 2026

TechDog / CondomínioApp

- Led the redesign of the whole CondomínioApp platform: resident app, SíndicoApp, management web system and website.
- Designed a multi-property task list for managers: 30% less time spent and 25% higher task completion.
- Designed flows for suppliers, inventory, facial recognition at the gate, pet area, marketplace and perks club.
- Research with property managers and residents (interviews and surveys), personas, clickable prototypes and usability tests.
- Worked with developers through implementation and built responsive layouts and components.
- Conect+EDU: redesigned the school management system and the teacher and student apps.

UX/UI and Graphic Designer
2022 – 2025

Freelance

- Arte Cidade: prototype of a platform for managing cultural events. Investment app with a yield calculator.
- Responsive websites, brands and packaging for clients such as Plot Twist, Alho Lopes and A.Dias Transportadora.

Product Designer / Concept Designer
2021 – 2022

Dogzverse NFT game

- Interfaces and flows for marketplace, dashboards, wallet and game screen. Logo, concept art and responsive website.

Product Designer
2019

Imusicacorp / Claro

- Interfaces and user-flow documentation for the Claro Música and Contestone apps.

Graphic and Digital Designer
2016 – 2022

FSB, Wide, MAXXGNV, Flamengo, Imprensa Oficial RJ, Coordcom UFRJ

- Campaigns, branding, editorial and presentations. UFRJ website layouts focused on usability and accessibility.
